Sports physicals

Get Kids in for Annual Sports Physicals

Fall sports season is here! A sports physical checks more than a signature on a form: it reviews heart health, growth and development, past injuries, and any conditions that could affect performance or safety on the field, court, or track.

If you haven't already, be sure to **make time for your child's appointment!** Completing this early gives time to follow up on anything that needs a second look before the season starts.

What to Bring

- Any required school or league physical form
- A list of current medications or supplements
- Details on past injuries, surgeries, or ongoing conditions

How to Get a Sports Physical

Please call to schedule your child's sports physical
